ORDINANCE IS PASSED FIXING BOOTLEG FINES

City Can Not Retain A Fine
Of More Than \$500 For
Any Offense.

MAY JAIL OFFENDER

City To Become Party To
Legal Fight Over Right
Of Way.

A city ordinance fixing the fines for violations of the Crabbie act was passed at the city council meeting, Monday evening. The cases prosecuted under the city ordinance are subject to a fine of not less than \$200 and not more than \$500 for the first offense and not less than \$300 and not more than \$500 or imprisonment for 60 days or both for any subsequent offense.

The ordinance originally was passed fixing the fine for the second offense at not more than \$2,000 but City Solicitor George D. Klein was notified by the state department that a city ordinance was not allowed to include a fine of more than \$500. A personal investigation by Solicitor Klein and Mayor W. S. Tish resulted in another notice stating that the city was allowed to write a fine that the ordinance exceeding \$500 but that the state would receive one half of the fine, the rest as if the case was prosecuted under the state law. As one of the purposes of the ordinance was to secure more money from fines for the city, the ordinance was re-enacted and passed with a maximum of \$500.

Bond Issue Discussed

City Solicitor Klein asked what should be done about the bond issue to cover the expense of the sewer on south Eighth-st. and the paving and improving of the south side alleys and streets. Mr. Klein said that he thought it would be necessary for the bonds to bear 60 percent interest if they were to be sold under the existing conditions of the local market. When asked if the local banks would buy the bonds, Mr. Klein said that it was possible that the banks would take them, if they were passed upon by outside bonding attorneys.

City Enters Suit

The city solicitor was authorized to make out the necessary papers to become a party defendant in the case of the American Art Works against the Keagy & Lear Machine Co. This case has grown out of a dispute of the two companies over some land adjoining the Pennsylvania tracks, which is being used at the present time as a public driveway. The American Art Works claims ownership of the ground and attempted to close the driveway. The Keagy & Lear Co. disputed the right of the American Art Works to close the right of way, on the grounds that it had become a public way, due to the lapse of time since any private ownership had been claimed. The Keagy & Lear Co. claimed that the city had laid water mains, and sewer drainage pipes under the ground, and that gas pipes were also laid over this ground. It is for this reason that City Solicitor Klein thought it advisable for the city to take a part in the case, for if private ownership is established, the removal of these water mains would probably follow, much to the inconvenience and expense of the city.

At the suggestion of a number of the councilmen, Safety Service Director L. B. Piper was instructed to have a plot of all the water plugs and connections in the city made for reference.

A Motion Excusing Councilman A. E. Riley for Absence was Passed by the Council before Adjourning.

NEWARK GIRL IS IN SOUND SLEEP SINCE JANUARY 8

NEWARK, Jan. 25.—Dorothy Shrock, 14 year old daughter of Mr. and Mrs. William Shrock, has been in a sound sleep since January 8, when she lapsed into a deep slumber after returning home from a theatre where she had witnessed a sensational motion picture that caused her to be extremely nervous.

Doctors are baffled about the case.

SALE IS OUTLAWED AS CROOKED DEAL

WASHINGTON, Jan. 25.—The sale of the Alice Gold and Silver Mining Co. was set aside today by the United States supreme court on the ground of inadequacy of price. The sale was contested by minority stockholders who alleged that \$1,500,000 paid was not enough and that there was a violation of the Sherman anti-trust law by the Anaconda Co. in an effort to control copper production in the Butte district, Montana.

Coldest Wave Of Winter At Boston

BOSTON, Jan. 25.—New England was today in the grip of the coldest wave of the winter. The mercury dropped 30 degrees in 18 hours.

This afternoon it was 3 above zero in Boston and as low as 3 below in the suburbs.

COSHOCTON RACING ASS'N LAYS PLANS FOR MEET IN JULY

At a meeting of 30 members of the Coshocton Racing Association held at the City Hall Monday evening, L. J. Foster was elected president, W. M. Smith vice president, F. W. Mowery, treasurer and W. Q. Barnes, Jr., secretary.

Following the election of officers a general discussion of the July racing event in Coshocton was taken up.

There will be two \$1,000 stake races and seven \$100 class races. These stakes are to be uniform through the racing events of the Ohio Valley Short Circuit association.

The races in July at Coshocton will be held at the fairgrounds on the first, three days of the week of July 4, Monday, Tuesday and Wednesday.

W. Q. Barnes and F. W. Mowery were named on the Stake Race committee and their duties are to solicit the funds to back these stakes. The guarantee cards or the membership cards will be distributed by W. Q. Barnes and F. W. Mowery and all who care to fill out the blanks paying to the racing association \$25 to become a member, can either consult Mr. Barnes at the Barnes hotel or see Mr. Mowery at the Coshocton National bank. The membership fees have been advanced from \$10 to \$25 on account of the higher grade of racing that will be featured at the fairgrounds in July.

The membership books are to close by March 1 and all members are requested to pay their money in by May 15.

GREEN DEMANDS RECOGNITION OF LABOR'S RIGHTS

WASHINGTON, Jan. 25.—"Recognition of the rights of labor" in the Calder bill for control of the coal industry by the government was demanded today by William Green, of Coshocton, Secretary of the United Mine Workers of America before the senate manufacturers committee.

"A fair deal to labor implies full recognition to the fundamental rights of labor," Green declared.

"That will be conceded, I think, even though there may be debate as to what those fundamental rights are. It is my immediate contention, if the committee please, that if the public interest is to be safeguarded properly, a constant supply of coal at a fair price must be assured; second, this calls for uninterrupted and efficient production; third, this is possible only if the mine workers are reasonably contented and satisfied; and fourth, the mine workers will be contented and satisfied only if their fundamental rights are guaranteed them. Upon this I base my final contention that it is essentially in the public interest that preliminary to any constructive program for dealing with the coal industry the rights of workers must be accepted and established beyond the possibility of attack.

"In this I have no hesitancy in saying that the rights of labor are superior to and should be considered prior to the rights of capital.

"The rights of labor, whatever they may be, are just as much vested rights as are the rights of capital. Therefore when the government undertakes to regulate, to control or to acquire the coal industry it is obligated to see that the human rights are protected.

"Property rights are easily defined, readily ascertainable and susceptible of exact measurement in dollars and cents. It is not so with human rights, and accordingly we submit that in the matter now in hand it should be the first concern of the congress to ascertain or to define the fundamental rights of workers in the coal industry and to so frame its constructive program that these rights will be protected at all times.

"To assist in this determination, we shall state these fundamental principles without due recognition of which it is our judgment that there can be no hope of permanent peace and prosperity in the coal industry either under private or government control, and no promise that the paramount public interest in the situation will be observed. These principles are:

- 1.—The right of collective bargaining on the basis of union recognition.
- 2.—The right of labor to a living wage, with differentials for experience, skill and hazards of employment.
- 3.—The eight hour work day.

PRINCESS PAT'S SON IS BOUNCING LAD

Most recent photo of Lady Patricia Ramsey, "Princess Pat," and her son.

This intimate glimpse of England's most beloved noblewoman, Lady Patricia Ramsey, shows her with her young son in the nursery in their palatial home. "Princess Pat," as all England knows her, was popular with English folk before her marriage because of her sympathetic nature, her beauty and her democratic ways. And when she spurned offers of numerous titled men and married Commander Alexander R. N. Ramsay, an untitled Britisher in the navy, she endeared herself more. Ramsay since has come into a title of his own.

SMALL NATIONS LEAD WAY IN INTERNATIONAL CO-OPERATION, SAYS EXPONENT OF THE LEAGUE

LONDON, Jan. 25.—The small nations of the world are pointing the way in the league of nations, and of the small nations, those of the Balkans, previously the most troublesome

have set the finest example of international co-operation, in the opinion of Lord Robert Cecil, the leading zealot of the movement in the English speaking world.

Red Revolt Brewing In Finland, Report

LONDON, Jan. 25.—A red revolution is brewing in Finland according to an exchange telegraph dispatch from Copenhagen today quoting reports received there from Finland. The dispatch added that Finland officials admit the situation is grave.

MODIFIED SOVIETS IN GERMANY MAY BE COUNTENANCED

BERLIN, Jan. 25.—A bill which would legalize the formation and maintenance of soldiers' and sailors' "chambers" similar to the soldiers' Soviets, formed after the German revolution will be introduced in the Reichstag and will lead to strong and protected debate.

These "chambers," under the provision of the bill would be elected by secret vote by the entire army and the personnel of the bodies would have advisory power in all army matters.

The president of the republic would be made commander in chief of the army after the system of the U. S. government.

A new departure for Germany, is the provision under which common soldiers may become officers.

Following the recent agreement reached at the conference at Weimar, instead of a strongly centralized army troops must be recruited and garrisoned in their own province. Thus the Bavarian enlisted men remain in Bavaria, under Bavarian officers, and the commanding officer of the province is a Bavarian. If the state police is insufficient to meet the emergency the Reichswehr of that state may be called out.

A bitter fight is expected to be waged over the bill. The socialists it is predicted, will put up a tenacious battle against the provision, forbidding soldiers to be members of a political party, and to attend political meetings.

Under the new army bill officers and soldiers have no vote. The proposed law closely follows out the provisions of the Versailles treaty.

George Davis, of the Orange vicinity who has been suffering for the past few days from encephalitis, a "sleeping sickness" was reported Tuesday to be somewhat improved.

RIOTING AGAIN BREAKS OUT IN ALLAHABAD, INDIA

ALLAHABAD, India, Jan. 25.—Violent rioting was reported today from the Faizabad district of Oudh province.

Sixty houses were burned. A mob of 10,000 natives is arming. Heavy forces of police have been sent from Lucknow, 65 miles distant but the governor fears to send soldiers as actual warfare might result.

Seven arrests were made following an outbreak of rioting here. The rioters were quelled by policemen and firemen.

Later reports from Faizabad said that the natives were threatening to annihilate the police and that the governor had been persuaded to send troops from Lucknow.

FARMERS' BODIES DISCUSS CENTRAL HOLDING COMPANY

Ohio Producers Plan To Co-Operate In Buying And Selling.

CAPITAL TWO MILLION

Senate To Act Tuesday On Bill Providing A State Dry Commission.

COLUMBUS, Jan. 25.—Today's joint session of representatives of seven Ohio farm organizations is expected to be marked by the approval of reports to be submitted by committees providing for a central building company, with a \$2,000,000 capitalization and a program for rural commerce, including buying and selling, and a plan by means of which all farm organizations, preserving their separate organizations may co-operate.

Plans for organizations of a central holding company which would care for commercial activities, a competent system of financing farm operations and the co-ordination of all farm associations are being mapped out by the committee.

Members of three committees: finance, rural commerce and co-ordination and vision of labor—represent the Ohio Farm Bureau Federation, the Ohio State Grange, the Ohio Home Protective League, Ohio Wool Growers' Association, Co-operative Elevators and Shipping associations and the Farmers' Grain Dealers' association.

COLUMBUS, Jan. 25.—The senate today is expected to pass the Miller bill providing for a state prohibition commission, to be appointed by the governor, and other dry enforcement machinery, and for the searching of houses in which intoxicating liquors have been made and used since the state went dry.

The bill authorizes seizure of such illegal liquors.

Passage of the measure may be postponed by heated debate. Some opposition exists relative to the search and seizure sections and to the emergency clause.

Upon its passage by the senate, the bill will be sent to the house.

Bill providing for the abolition of district school superintendents and making them assistant county superintendents has been introduced.

FIELD FIRE ON JOHNSON'S HILL MONDAY EVENING

Both department trucks answered the fire call to Johnson's hill Monday evening when dry grass on the hill was set on fire by some school children of that neighborhood. The flames from the dry grass blazed furiously for a few minutes but the fire was put out by the residents of that neighborhood before the fire trucks arrived.

No damage was done. The fire department officials claim that the fire call should not have been turned in for such a small fire.

Johnson's hill is located at the end of East Main-st.

INCOME TAX BLANKS READY FOR PEOPLE

WASHINGTON, Jan. 25.—Revenue collectors in all parts of the U. S. today were instructed by Commissioner Williams of the internal revenue bureau to release to the more than 4,000,000 income taxpayers, new blank forms for use in reporting incomes for the calendar year 1920.

The new forms should be in the hands of taxpayers within a short time. Although the returns can be filed at any time up to midnight, March 15, the bureau has asked that taxpayers fill out their blanks and mail them to the collector of their district as soon as possible.

ELSON HAS TEN DAYS IN WHICH TO FILE PETITION IN ERROR, A MOVE TO SET ASIDE HIS FINES

Common Pleas Court May Remand Case To Mayor's Court For Re-Trial Or Dismiss The Case On Error—In Event Of Dismissal, City Will Carry Case Thru Higher Courts.

WOULD LEGISLATE TO STOP FURTHER ELECTION FRAUDS

M. Clyde Kelly.

M. Clyde Kelly, Pennsylvania congressman, has offered a bill in the house to amend the original code of the United States to prohibit a recurrence of frauds such as those which occurred in his state in the primary elections of last May. His measure provides a fine of not more than \$10,000 and ten years in prison for conspiracy to "injure, oppress, threaten or intimidate any citizen in the free exercise of his rights under the constitution."

TOBACCO GROWERS OF KENTUCKY ARE BEING THREATENED

LEXINGTON, Ky., Jan. 25.—Tobacco growers of Bath and Fleming counties are greatly worried today over threats of violence made by night riders who swept thru the district late Saturday and early Sunday, warning the farmers to haul no more tobacco to the Carlisle and Flemingsburg markets. Outbreaks in other counties are feared.

An investigation was begun today by the authorities into the activities of the night riders, and drastic punishments are promised.

The authorities fear that the violence that marked the tobacco war of 1908 in Kentucky may be repeated.

James N. Kehoe, of Massville, president of the Barley tobacco growers' organization, a body organized to promote the elimination of the tobacco crop next year, strongly condemned the night riders today.

"The use of force is a great mistake," Kehoe said, "and no possible good can come from it."

Violence was openly threatened the farmers by the night riders if they refused to obey their orders. The riders demand that no preparations be made for planting barley tobacco in this year. Two towns, Shepherdton in Fleming county and Bethel in Bath county were visited by the night riders and reports today indicate that nearly a score of farmers were called upon by the band of masked men. According to authentic reports there were 25 men in the band, 15 of them mounted and four on foot.

CLARA HAMON WILL PLEAD NOT GUILTY LATE IN FEBRUARY

ARDMORE, Okla., Jan. 25.—Clara Smith Hamon will be formally arraigned for the alleged murder of Jake L. Hamon, Oklahoma oil king February 26, it was announced today by Dist. Judge Thomas W. Champion. She will plead "not guilty." She entered the same plea when released under bond a month ago.

The accused woman conferred today with her attorneys, headed by C. A. Coakley. They will demand immediate trial on March 10, it was announced.

The hearing of the petition on error which may be filed by Tunis (Polly) Elson, according to the decision of Common Pleas Judge James Glenn Monday afternoon, must be held within ten days after the permission to file the petition is given, according to City Solicitor George B. Klein.

Judge Glenn allowed permission to file the petition on error on the ground that the affidavit used in the case was incomplete. Elson was charged with having intoxicating liquor in his possession, and according to his attorney, C. Homer Durand, the affidavit does not state the charge in a clear and legal manner.

The affidavit is a form issued by the state for use in cases of violation of the Crabbie act, and was written by state lawyers.

Public opinion seems to be that Elson will escape the penalty of \$2,000 which was assessed by Mayor W. S. Tish, but, according to the opinion of City Solicitor George D. Klein, the only possible manner in which Elson can escape, is that his attorney will succeed in proving the Crabbie act unconstitutional. This, according to Attorney Klein is next to impossible, in as much as the Crabbie act is almost an exact copy of the national prohibition act, the Volstead law. The Volstead law has been tested on the ground of being unconstitutional and has been proven to be constitutional.

The manner of procedure in this case will either bring Elson back to the mayor for a new trial, or if the case is dismissed by the common pleas court on error the state may then take the case to the court of appeals.

Elson was first convicted of unlawfully having in his possession intoxicating liquor, by Mayor W. S. Tish and assessed a fine of \$2,000 and costs. Notice was then given by the defendant that he would file a petition asking for a hearing of a petition on error in common pleas court. He was released on a bond, just double the amount of his fine and costs.

The hearing for permission to file a petition on error was held Monday afternoon, before Common Pleas Judge Glenn, who granted Elson permission to have his day in court.

If, at the hearing of the petition on error, sufficient error in the legal proceedings of the case are established by Elson's attorney the common pleas judge may dismiss the case. If error in the admission or omission of evidence is established, then the case must be remanded to the mayor for new trial. The mayor has final jurisdiction in the case, providing the legality of all papers, such as the affidavit, the warrant for arrest and the search warrant is sustained.

If, however, the case is dismissed and Elson is relieved from all penalty, the state may take the case to the court of appeals. City Solicitor Geo. D. Klein states that this action will be taken if the case is dismissed in common pleas court.

PARK VIEW POOL ROOM PURCHASED FROM BRANFIELD

The Park View billiard parlor and bowling alley formerly owned by J. E. Branfield, of Cambridge, was sold today to the Branfield family, partners, J. E. Branfield, Jr., and J. E. Branfield, Sr., of Cambridge, for \$10,000.

Mr. Branfield has been a long and successful business man in the city. He and his late wife, Mrs. Branfield, have been successful in many of their business ventures. The new management of the Park View pool room will be J. E. Branfield, Jr., and J. E. Branfield, Sr., and will be known as the Branfield Billiard and Bowling Club.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "black brown" taste, a bad breath, a dull, heavy, "stagnant" feeling, constipation, a mild fever, and disposition of puffy face.

Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their Olive Coat.

Dr. Edwards' Olive Tablets are the most effective remedy for all skin troubles, pimples, eruptions, and all other skin complaints. Take one or two tablets at night. You will know better how to feel and look after a few days.

PEOPLE'S FORUM**THE SCHOOL PROBLEM**

Editor Tribune & Times-Age

We take notice that Representative Miller offers a bill abolishing the county superintendent of public schools. This act of Mr. Miller's is in accordance with the promise made by him during his campaign, that if elected, he would introduce a bill of this nature. He was elected, has fulfilled his promise, and now it becomes the duty of the people of Coshocton to take of their hats to Mr. Miller for his courage in verifying his campaign promises.

The undersigned has all reason to believe that fully 80 per cent of the electors are utterly opposed to the law creating county superintendents of rural schools, not because the people of Coshocton are not progressive, for they always have been and are at present willing to step to the front, whether that forward step is along the line of education or any other line that is for the betterment of all concerned, but because the vast majority of people in the county look upon the office as one of the most worthless, one that gives the least return for what it costs, of any in the state.

We know the people of Coshocton County have nothing to say against the moral character or the efficiency, the citizenship, or ability to teach of the district superintendents for we conclude that each and all of them, if put to the test, would get a 100 per cent grade in efficiency, manhood and citizenship, but the opposition comes from the fact that the office of County School Superintendent is nothing more or less than a costly blank to the tax payers of Coshocton county, and every other rural county in the State of Ohio. There has not been a law put on the Statute Books in the last fifty years that cost the people as much as this or no return as the law creating County School Superintendents.

Empty Plates and Empty Stomachs

There are, in the hunger lands of Eastern and Central Europe, no less than 3,500,000 little children for whom America must make a place at her family dinner tables during the next ten months, if they are to live. The European Relief Council, Herbert Hoover, chairman, undertaking to provide for them one hot meal a day at public feeding stations, has asked that every family in this country take at least one of these unfortunate as an "invisible guest" throughout the coming winter.

To entertain a starving boy or girl as your "invisible guest" you have only to purchase an "Invisible Guest" certificate and thus assure him of sufficient food to maintain life. One dollar will fill a child's plate for a whole month. Ten dollars will make him your guest until next harvest.

Meanwhile, hunger long endured by the millions of children in Europe, marking and maiming its victims every day. Fifty per cent of the children of the city of Vienna alone are tubercular. Fully ninety per cent are afflicted with rickets, which causes a softening and bending of the bones. The remedy for both is simply food—enough and of the right kind.

The European Relief Council, representing the concerted effort of the American Relief Administration, the American Red Cross, the American Friends Service Committee (Quakers), the Federal Council of Churches of Christ in America, the Jewish Joint Distribution Committee, the Knights of Columbus, the Y. M. C. A. and the Y. W. C. A., is seeking to raise \$33,000,000 in a national collection. "Invisible Guest" certificates may be obtained from your local committee. Or, if you prefer, apply to Franklin K. Lane, treasurer of the European Relief Council, 42 Broadway, New York City.

Long before County School Superintendents were that of some fifty-four years ago, the writer had the honor of attending school with Professor Shaw in Bedford-up, at the Donkey school. The Professor was an apt scholar, full of vim, energy, perseverance and self-reliance, and landed where he is at present without the aid of a county school superintendent.

County School Superintendent is too small a job for a man of the natural and acquired ability to teach, as that of Professor Shaw. He is an educator and as such should be in some college.

Now, Mr. Editor, as this school superintendent business is going to be discussed before the Legislative body at Columbus, for the information of the younger set of boys and girls, I would like space in your columns to go back fifty or sixty years and compare them with today.

Sixty years ago in the rural schools of Coshocton there were enrolled anywhere from forty-two to sixty scholars, at least two-thirds of whom were young men and women. Their studies consisted of spelling, reading, writing, arithmetic, Ray's Third part, Ray's Higher, and Stoddard's Primary and Higher Mental, along with Algebra, Geography, Grammar and sometimes a step higher, but the above were the principal studies.

In the evening when the members of the spelling class took their places to spell, there was a row all around the school room. Many never knew what it was to miss a word in the spelling class.

The same was true of the other studies. All the examples of Stoddard's Mental Arithmetic could be handled by some, a feat that would baffle many of the students of today in the grades of education. The fundamental principles of geometry and algebra of that time were handled with ease and rapidity in the minds of the scholars of that time.

Babies in Arms in Polish Bread Line

Children, too weak to walk, are carried in their mothers' arms to the American Jewish Relief clinics in Poland. The faces of mothers and children alike are lined deep with suffering, privation and disease brought on by five years of starvation.

The photograph, typical of 3,500,000 child victims of war and famine, slowly dying in Eastern and Central Europe, was taken at Lodz. Food is the only cure that most of them need. Without it they must perish. America is the only land to which they can look for the faintest hope of life. No food can be had from their own countries sooner than the harvest of 1921. Starvation is daily taking toll by the hundreds. Every dollar to be given to the European Relief Council's \$2,000,000 fund, now being raised, must be given immediately. Starvation knows no delay.

Contributions should be made through local committees or Franklin K. Lane, treasurer of the Council, 42 Broadway, New York City.

Cooperating in the European Relief Council are American Relief Administration, American Red Cross, American Friends' Service Committee (Quakers), the Federated Council of the Churches of Christ in America, Jewish Joint Distribution Committee, Knights of Columbus, Y. W. C. A. and Y. M. C. A.

Former German Consul Is Now On His Way Home To Fatherland

BERKELEY, Jan. 25. — Franz Bopp, former German Consul-General at San Francisco, who was convicted under the espionage act, has started on his journey back to the "fatherland." With his housekeeper and son Bopp is now on his way to Chicago.

His straw-colored mustache fairly bristled as he packed off the end of his ever-present Turkish cigarette and bade his friends goodbye. He declared that he would probably never visit the United States again.

At Chicago he will spend two weeks visiting relatives and then he will go to New York, where he will have to ship by way of Bergen, Norway, cross Sweden and sail to Germany.

Since his sentence on October 4 of last year Bopp has been taking his time, in clearing up his affairs in this country. He declared that as he was in the custody of the government officers he was in no hurry. He said that it had been arranged that he should go back to Europe.

He said his furniture in Berkeley several weeks ago and he disposed of what effects he had in this country.

SQUATTER KING DIES ON WATER

CINCINNATI, Jan. 25. — Capt. Geo. W. H. Streater, famous "squatter king" who owned a float on Lake Michigan, died Saturday on a houseboat. Capt. Streater, it was learned here, was 58 years old. A "Captain Streater" settled on a section of the Lake Michigan water front and claimed title to lands upon which non-wealthy Chicagoans had built their homes and on which some of the city's finest apartment buildings were erected. He claimed title under an alleged government grant dated many years ago.

Altho the courts declared his claim fraudulent, Streater resisted for years attempts to oust him from his squatter cabin and several gun fights with the authorities resulted. He was finally removed from the land about a year ago and had been living in his East Chicago houseboat since that time.

The aged and war-like "Captain" was one of the most picturesque characters in Chicago, for many years.

Whiskey Sleuths Sent to "Treasure State" to Break Up "Montana Thru Pipe Line" Find Task is More Than Difficult—One Instance of Fake Funeral In Which the Hearse Carried "John Barleycorn" Over the Line

HELENA, Mont. Jan. 25.—That Federal prohibition officers are engaged in breaking up what they believe to be the greatest organized gang of bootleggers operating in any section of the United States. In the Montana Through Pipe Line, and the action of the sleuths in the Montana Through Pipe Line, and the action of the bootleggers are not confined to the Canadian-Montana boundary line but frequently extends along the Canadian Wyoming line.

Many raids accompanied by fierce hand-to-hand fighting between officers and bootleggers, have occurred at border towns recently, and the belief is general that especially qualified "dry" officers must be appointed to cope with the widespread violations of the prohibitory law in this region.

This new way to beautiful teeth

Your druggist today has a new way of teeth cleaning. And a ten-day tube is free.

Millions of people now employ it. Leading dentists everywhere advise it. You would never go without it if you knew.

Go ask for that free tube. There are few things more important than well-protected teeth.

Remove the film-coat

You brush teeth now, but you leave much of the film. A viscous film clings to the teeth, enters crevices and stays. The ordinary tooth paste does not end it. So teeth too often discolor and decay.

Dentists now know that the reason lies in film. That causes most tooth troubles. And, until one ends it, brushing fails to save the teeth.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And pyorrhea wrecks countless lives today.

An alarming situation

Tooth troubles have been constantly increasing. Very few people escape them. So dental science has in late years studied to combat that film.

Now we know how. The methods have been proved by careful clinical tests, made under able authorities. Now millions of people employ them, largely by dental advice. A new era in teeth cleaning is fast spreading the world over.

These new methods are combined in a dentifrice called Pepsodent. A 10-Day Tube is given to everyone who asks. Now all who will may quickly know that film can be combated.

What you will see

A test of Pepsodent brings quick and unique effects. One sees and feels them clearly. And a book which comes

with the 10-Day Tube tells the reasons for them.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. Each application also multiplies the alkalinity of the saliva—to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One keeps the teeth so highly polished that film cannot easily adhere.

Day by day we fight the film and all its ill effects. You see the results in whiter teeth. You feel them in cleaner teeth. But the great results are such protection as teeth never had before.

You owe yourself a knowledge of these facts. Old ways of brushing have proved sadly inadequate. Nearly everybody at some time suffers troubles caused by film.

Now science knows how to combat film, and in ten days you can know. Never again will you trust the old ways when you know the new.

Teeth will glisten when the film-coat goes

Get this free tube and watch it. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the film-coat disappears.

You will instantly know that Pepsodent does what nothing else has done. In a few days you will realize what clean teeth mean.

Relay stations where cars and men are changed and "goods" carried through on schedule time in broad daylight, were broken up in a recent surprise attack on the bootleggers when one member of an important "whiskey circle" was left out of the dividends and "squealed" on his friends.

Funerals designed with the artistry of professional stagecraft, calling every member of a large cast to act with ability, were used successfully for a time. Spare tires of automobiles are chestnuts now, as are reserve tanks hidden within gasoline tanks.

JOHN BARLEYCORN'S FUNERAL

While much has been said about the death of John Barleycorn, the real obsequies were held in a Montana town which is on the Canadian border. The funeral services consisted of the efforts of three sturdy men to carefully wrap up bottle after bottle of goods and place them side by side in a beautiful casket. After filling the casket with several hundred bottles of convenient "hip pocket" size, the lid was screwed on and the funeral services were started.

A man dressed as a minister arrived at a residence on the Canadian side of the town. Several friends, including "women" heavily veiled and with large hats gathered around. A brief wake consisting of a smoke and a few drinks, while plans were gone over for the last time, preceded the pall bearers' exit from the house to a waiting hearse at the front gate. There the casket was gently lifted in and the doors closed. The "funeral director" who was the chief actor in the plot, called out the names of mourners' cars, which followed the hearse through the town. When it came to the international boundary the procession moved ahead very slowly and carefully with the mourners apparently much affected by the loss of the "dear departed."

CARRIED TO CEMETERY. The cortege proceeded to the cemetery on the American side of the line

and there the minister spoke a few words about the great loss which all suffered when their "old friend John" was taken away from us by that sin and the casket was rolled back in the prior power to which we all bow or hearse again and the curtains pulled reverently. A prayer was muttered down on each side. The hearse before the casket lowered into the grave, returning to the Canadian side of the line. The grave was partially filled, in fact was backed into a small storage when a strange event took place. The lid of the casket reopened and women mourners suddenly took off their hats, veils and dresses and to rent was being distributed in many

The Latest Scarecrow

A Number of newspapers in the east, notably The New York World, The Washington Post and the Hearst publications have for several months made a great ado about the revival of the old Blue Laws and plans for enforced Sunday observance.

It is only fair to say that this newspaper campaign is all bunk; that there has nowhere in America from any responsible source been the slightest agitation either in or out of the church to revive the Blue Laws of the early New England colonists; that these papers have known from the first that there was nowhere any such intent; and that the whole agitation, instead of originating within the church, ORIGINATED IN THE OLD LIQUOR CAMP FOR THE SINGLE PURPOSE OF DIS-CREDITING PROHIBITION.

It is true that here and there so-called reformers may be found who advocate turning to state and national legislature to have written into statutory law their own particular fads. But men of this type are not new arrivals on the scene of action. They have always been with us. They always will be. They never got anywhere with their own particular projects, for which no grief is expressed, save their own, but more to the point they really defer the advent of sane and moderate social reforms by their ill-advised zeal.

With their usual resourcefulness the opponents of prohibition have seized on irresponsible propagandists of this type to serve their own ends. They have secured a certain amount of newspaper publicity the same as the originators of the beer strikes, the soldier opposition to prohibition of one and two years ago secured, but it will blow over and be discredited by the inexorable march of events as were these other catch-penny devices of a defunct and outlawed business.

They are now attempting to make the public believe that the same forces which put across prohibition are back of a dark plot to abolish the use of tobacco, to put an end to harmless amusements and to restore the New England Sabbath of the seventeenth century. That there is absolutely no truth in this will shortly be in evidence and these same unscrupulous interests will as blithely forsake and forget their present methods of deceit as they have forsaken a dozen others in recent years and seize upon some new pretext in a vain attempt to withstand the irresistible march of progress.

These same mentally distorted liquor propagandists only a short time ago were frantically engaged in showing the nation that it was "unfair to the two million soldier boys in France for congress to submit a federal constitutional prohibition amendment while they are out of the country and have no opportunity to express themselves," while as a matter of fact the congress that submitted that amendment was elected and prohibition was a live congressional issue in every district in America before our soldiers had gone to France or had even been assembled in the cantonments in the United States.

Similarly, these interests were sure labor would "never stand to have its beer taken from it," and would "resent the un-American tactics of the fanatics by refusing to perform the nation's war work." The trend of events, of course, soon disclosed the absurdity of this liquor invention and served further to show that if there was any disloyalty in America during those trying years it was pretty closely confined to the brewers of the country, backed by their old-time friend and sponsor, The German-American Alliance.

So, too, will the present-day bugaboo of the "Blue Law" revival soon be nailed to the door of its sponsors and revealed to the American public for just what it is, the latest (but hardly the last) scheme of the erstwhile booze manufacturers and vendors to save what they can of a traffic which an aroused public sentiment has at last and for all time outlawed in America.

Ten out of our forty-eight American commonwealths have as yet enacted no anti-liquor enforcement codes. These ten states were to the end unconvinced to prohibition largely because there had not been conducted in them a campaign of education such as had been waged in the others for periods ranging from ten to thirty years with a view to impressing upon public opinion the utter waste and worthlessness of the traffic in beverage intoxicants.

Four or five of these ten states will harbor a vague belief that the Eighteenth Amendment can be overthrown. It is more accurate to say that a certain element among the people of these four or five states still cherish the delusion that prohibition is only a passing moral fad. Certainly, the sober, responsible, thinking classes even in these states realize the futility of trying longer to undo the past and to roll back the progress of three-quarters of a century.

It is to this minority element in these few remaining states that the newspapers above mentioned are appealing. That these papers know they are being used by the liquor interests and that there is no more hope of repealing the Eighteenth Amendment than there is the Fifteenth, is only a fair assumption.

But for the present the public, or such part of it as reads these papers, must exercise such patience as it may have. The "Blue Law" scarecrow will soon be dismantled and removed from public gaze, but judging the future by the past, we may expect to see some new stalking horse rigged up and exhibited for the country's edification in furtherance of the liquor people's desperate hope that some device may finally be hit upon which will permit them again to fasten their poisonous tentacles upon the body politic.

Fifth Avenue is marvelous in its changing beauty. A stream of automobiles flow north and south. A red light in the traffic towers becomes green and the entire street comes to a dead halt. It is as if life had suddenly run out of the thoroughfares. Then it flows on again just as quickly. The beggars, the newbies, and curb hawkers reap their harvest as the hordes sweep home.

It was fairly loaded down and drooping. Each bag, so the story which I believe to be authentic goes, was loaded with gold, silver and

WALT MASON IN A HURRY

The blithe new year is gaily hopping to join the old years of the past; the days slide by, there is no stopping, our days are much too good to last; soon we must do our Christmas shopping, time goes so fast, time goes so fast! The new year came, with rings, lets curl, and on his lips a cheer-up song, that heartened even the sore and surly, and showed them that their grouchy was wrong; but soon we'll do our shopping early—time whoops along, time whoops along! The new year: did some wholesome bragging about his pep and punch and vim, but soon we'll see his step is lagging, and he'll have spavins on each limb, and then we'll see him sadly dragging his carcass to the bonerard grim. So to the shadows we are wending, a little older every day; each flying hour, some gray hairs lending to our old domes, already gray, and bringing nearer us the ending of hope and dread, and work and play. Each flying minute makes us older, and plants new ailments in our frames; some new rheumatics in the shoulder, where once we pressed against the hames, or gout in feet that now are colder than when they danced in youthful games. Ah well, gadzooks, we've had our inning, we old, old gents and gaffers gray, and, like the year, in our beginning, we put up many kinds of hay; and now that our white locks are thinning, we must give youth the right of way.

It is difficult to imagine souvenir hunters taking electric light globes from hotels and carting them home but they do it. In fact they do it so frequently that many hotels now have frosted letterings in the globes reading: "This globe was stolen from Hotel Blank, New York."

Famous Old Landmark Is Moved In Boston

BOSTON, Jan. 25. — A famous old-landmark of Boston, the Charles Street M. E. church, built in 1807, is now being moved ten feet, in accordance with the widening of Charles street. Built in 1807, dedicated August 5, 1807, "as a separate church of Christ, by the name of the Third Baptist Church of Boston," the structure is noted for its architecture of the Bulfinch period. The church was incorporated in 1839. Since 1877 the building has been owned by the First African Methodist Church. The church was built at a cost of \$27,000. Cost of moving is \$40,000, of which the city will pay \$30,000 and the parish \$10,000.

Professors Scored For Not Teaching "Hell"

BOSTON, Jan. 25. — Professors of the University of Chicago were scored at the opening meeting of the New England Bible Conference in Park Street Church because they rejected the teaching of hell, when Chicago would be enough in itself to prove that there was one, intimated Dr. Arno C. Gaebelin, of New York.

"There are two questions which the Bible answers and no other book answers them," said the speaker. "These questions are: Where do we come from and where do we go to? Let me tell you that no other book tackles these questions. Sir Oliver Lodge tried to interpret them, but he has fallen short."

Stenographers' Skirts Shocked Delegates

GENEVA, Jan. 25. — The League of Nations couldn't settle the disarmament problem, but at least it has ruled on the length of a woman's skirt.

Some of the older delegates at the recent session of the league assembly here complained that young French, English and Italian stenographers who tripped up and down stairs at league headquarters wore their skirts too short. The league secretariat thereupon instructed the girls that skirts must fall at least six inches below the knee.

PUT CREAM IN NOSE AND STOP CATARRH Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. You cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate thru every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffy, fed-up and miserable.

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmital (double strength) and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

STOMACH ON A STRIKE

"Pape's Diapepsin" puts Sour, Gassy, Acid Stomachs in order at once!

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food— just eat a tablet or two of Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress. If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin, which costs so little at drug stores.

Refuses To Swap Possum For Horse

CRAWFORDVILLE, GA., Jan. 25. — An unusual horse trade was made here a few days ago when the owner of the horse agreed to swap in an even exchange for a possum. When the horse was produced, however, the owner of the possum decided he had spent too much time and had contracted too much cold as a result of his exposure in catching the possum to warrant the exchange. The trade was called off.

This incident, however, is not to be taken as a criterion of livestock value in the county.

Skirts Stay High In London Town

LONDON, Jan. 25. — A feature of the new costume models is the white merino wool trimming. A thin band of this is used round the waist and the cuffs are also finished in the same way. The edge of the skirt is bordered with a similar white band. Skirts, which are narrower, come four inches below the knee.

Awful Sick With Gas Eatonic Brings Relief

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about \$2. Easily and quickly prepared.

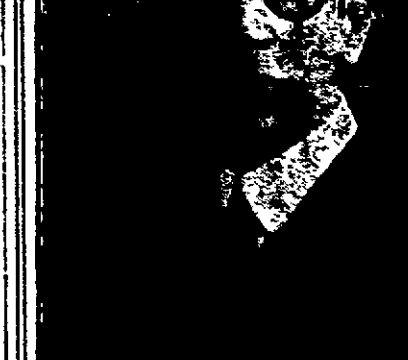

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, (croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break severe coughs.

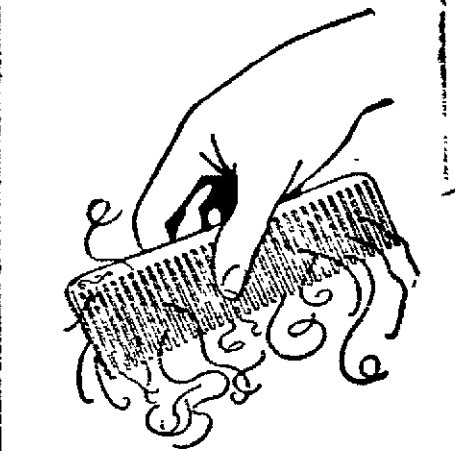

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

FACTS ABOUT OPTOMETRY

By OTIS G. MORSE

Number Ten Of The Series

How much are the public actually in need of Optometry? What percentage of people would be better from a health and efficiency and dollars and cents standpoint for consulting the Optometrist?

What undesirable results usually follow the possession of an error of vision?

What percentage of school children would be better for an Optometrical examination, and becoming equipped with glasses? What percents of vision are the most common and how can the public most readily be brought to a realization of their need for interviewing an Optometrist?

These and other subjects will be discussed in future articles. We suggest that you follow them regularly.

January 15th, 1921.

A. B. Parrish, D. C., City.

Dear Doctor:

I am so grateful to you as a Chiropractor for saving my life. After suffering a stroke of paralysis Nov. 6th, 1920, and given up to die, were advised to try a Chiropractor. After receiving the first Adjustment I slept six hours, soon was able to swallow, my breathing made easy—have always been bothered with my heart, severe cough and catarrhal condition—all have improved under the Adjustments. I am now able to come to the office for my Adjustments and in justice to you and your good work, allow you the use of this letter in any way that Chiropractic may become better known to all humanity.

Yours truly,

To find the 1500 girls who have come from Europe, the Orient and Latin America to study in the United States and to see that they are meeting people who will familiarize them with the best things of American life is one of the tasks being undertaken this fall by the student department of the National Y. W. C. A., thru its Committee on Friendly Relations with Foreign Students. A special worker at headquarters in New York City is completing a roster of names and thru the student associations which exist in practically all colleges attended by women these strangers are found and introduced to American families and friends. Names of prospective students have been sent to the New York headquarters by association secretaries in the countries from which the girls come.

Expert Drinks Hooch
In Court And Says
It Has A "Kick"

Cleveland, Jan. 25.—Assistant City Chemist D. S. Cowles believes a straight line is the shortest distance between two points. Summoned to make an analysis of "evidence" secured in a raid and alleged to be intoxicating, Cowles told the court it would take two days to report the result of his tests.

"There's a shorter and easier way known to good chemists," he explained and reached for the bottle.

A lone draught from its contents and the new Solomon removed his lips to say:

"It's intoxicating."

A second test, then—

"It can be used for beverage purposes."

And as Cowles left the courtroom the roomful of spectators eyed him enviously.

HARDING POUNDS
THE BALL AROUND
LINKS IN FLORIDA

ROCK LEDGE, Fla., Jan. 25.—President-elect Harding will dedicate a new golf course this afternoon at Vero, fifty miles south of here.

The Victoria, with Mr. Harding and his party on board left Rock Ledge early today and will cruise down the river to Paradise Landing, from whence they will motor three miles thru dense tropical jungles to the Vero course. The new links, while entirely completed, have not been thrown open to the public and the president elect will drive the first ball played in actual competition.

Mr. Harding had a pleasant visit early today with C. B. Kling, his brother-in-law, who is wintering here, and greeted scores of inhabitants and winter residents who flocked about the Victoria.

He has not gone swimming as yet for while the weather is warm, the water of the tidal inlet is chilled.

Members of the party indicate that it was possible that the senate, called in extra session by President Wilson to confirm the cabinet appointment might remain in session until President Harding calls congress in extra session late in March or early in April.

The object of this course, it was explained, would be to allow the confirmation of scores of important appointments which Harding is expected to make after March 4 and allow the officials concerned to begin to function at once.

Among the appointments may be those to the shipping board and the interstate commerce commission.

The highest temperature Tuesday, according to the local weather observer, Mrs. Ada Jeffries, north Second-st. was 30.

Both local rivers are rapidly falling as a result of the sudden cold wave that struck Coshocton Monday night.

Glass Coffin Men
Held By Uncle Sam

CLEVELAND, Jan. 25.—Two officers of the Modern Glass company organized to manufacture glass coffins were under arrest here today, it was announced by Postoffice Inspector Cochran. Cochran said the company established a \$700,000 factory in Toledo and sold about \$1,200,000 worth of stock.

No caskets were made he said, because the process was too costly. Efforts are now being made to locate the money realized on the stock. Cochran said the evidence will be presented to the federal grand jury in Toledo.

SUPREME COUNCIL
TAKES UP AUSTRIAN
SITUATION TUESDAY

PARIS, Jan. 25.—The attitude of the United States played an important part when the supreme council took up the critical Austrian situation today. Premier Lloyd George and the British delegation are pressing for immediate Austrian relief.

It was understood that the allied statesmen, first discussed the unofficial note from Washington, that all the allies renounce the indemnity claims on Austria.

The American representatives, on the reparations committee, would neither confirm nor deny that such a proposal had been made, but it was learned from authoritative source that the proposal came from Washington about two weeks ago.

The U. S. pointed out that there is no hope of any country securing in demity from Austria because she is bankrupt and on the verge of ruin.

At the same time the U. S. announced that she would not participate in the proposed international loan to Austria, because it would really be a loan to the allies, since the allied powers would immediately demand indemnity from Austria as soon as Austria is rehabilitated, financially. Neutral nations are reported to have taken the same attitude as the United States.

The scheme, for an international loan to Austria, is said to have originated with British members of the austrian reparations committee.

While the premiers were in session, the allied military and naval experts met and drafted an itemized statement showing wherein Germany had failed to comply with the disarmament protocol. Recommendations were drawn up for presentation to the supreme council.

Attend Sunday School
Nearly Hundred Years

LONDON, Jan. 25.—Has America any Sunday school attendance that can equal those of Wales?

It will require something out of the ordinary for there are people in Wales fast approaching centenarians who are still active in their attendance at Sunday school.

The Gee memorial medals for the longest Sunday school attendance in Wales were awarded to the following: Owen Jones, aged ninety-four, ninety-one years' attendance.

Robert Owen, aged ninety-one, eighty-eight years' attendance.

John Jones, aged ninety-six, eighty-seven years' attendance.

Miss E. Pugh, aged ninety, eighty-seven years' attendance.

Evan Jones, aged eighty-seven, eighty-four years' attendance.

The winner of the Champion Medal was a Liverpool Welshman.

Many Ohio Plants
Swing Into Stride

CLEVELAND, Jan. 25.—Under the stimulus of increased demand, manufacturing plants forced to shut down completely or curtail production during the latter part of last year, are now re-opening or increasing their output, reports from all parts of Ohio indicated today. Scores of plants have swung into full stride since Jan. 1. In the majority of cases a decrease of wages averaging 20 per cent was made effective.

One big lumber company announced a reduction in the price of its product with the resumption of production.

While practically all lines of industry are feeling the urge of increased demand, the revival is particularly noticeable in the steel industry. This is due to the reopening of auto plants in all parts of the middle west and resumption of building, it was held.

Cleveland, Youngstown, Canton and Steubenville, steel centers, are reflecting a flow of new orders by drawing back into the mills large numbers of unemployed.

Want to Feel Just Right?

— Take an NR Tonight —

JUST TRY IT AND SEE how much better you feel in the morning. That "heaviness," headache, tired, don't-know-what-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

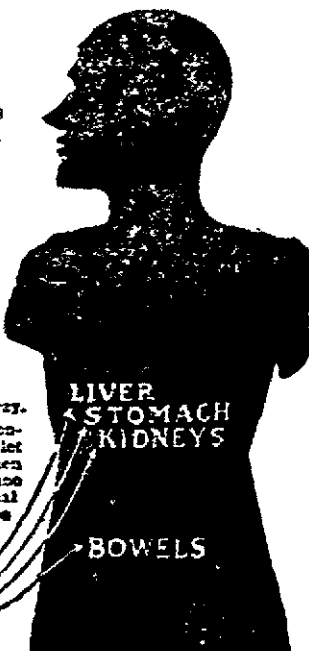

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or occasionally constipated, take one NR Tablet each night for a week. Then every day, just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best.

Vitality Of Seeds Diminish With Age

How long will seeds remain alive? This question is answered for farmers through tests made at the Ohio Experiment Station on the longevity of seeds, including corn, oats, soybeans, and wheat. Tests were made with 22 different kinds of grain.

With corn seed sown in 1909 and germinated during the 1920 season was very low in vitality. The grains produced very weak sprouts—compared with one-year corn.

While farmers as a rule do not keep grain for seed over long periods of time the tests show that there is a noticeable taking off in the growth and vigor of sprouts with increases of age, also that many seeds have low vitality when gathered during years of excessive humidity and rainfall. Oats and wheat seeds gathered in the summer of 1915 show extremely low vitality because the rainfall for July that year at Wooster was 8.75 inches, the highest precipitation for 25 years. The 15-year average rainfall for July at Wooster is only 4.17 inches.

Dark, Cloudy Days Retard Lettuce Crop

Reports received from the Ohio Experiment Station indicate the lettuce and greenhouse crops over the State are from 2 to 4 weeks late in season because of extremely cloudy weather during the past winter.

The lack of sunshine has not only retarded the growth of greenhouse plants but made it possible for many plant and soil diseases to develop, causing a loss to greenhouse men.

Records of the weather made at the Ohio Experiment Station show that since November 1 to January 15—a period of 76 days—47 days have been recorded as cloudy and 19 as partly cloudy.

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Mustard is dead. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Mustardole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Use Mustardole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbitten feet, colds of the chest (it often prevents pneumonia).

HIGH SPOTS OF FARMERS' WEEK

The annual Farmers' Week program at the Ohio State University, Columbus, offers busy farmers and housewives the latest information on agriculture and home economics.

This is the ninth year it has been scheduled. The dates are from January 21 to February 4.

Between 2,000 and 3,000 farmers and their families attend.

Over 175 farmers and specialists throughout the Middle West have been secured to speak or give demonstrations.

A special program is arranged for women.

Twenty State agricultural associations, including the Ohio Farm Bureau Federation, will meet during the week.

The annual Ohio State Corn and Grain Show, a style show, a livestock show, and a show of farm water supply and lighting system, and labor-saving equipment are part of the affair.

A week's course in bookkeeping offered cooperatively under the auspices of the Ohio Bookkeepers Association and the United States Department of Agriculture will be held throughout the week.

Admission is free to every meeting.

Farmers After "Bullshvicks"

Farmers are persistently continuing their efforts to oust the "bullshvicks" from Ohio, as the scrub bulls are being called. In Clermont and Marion Counties surveys are being conducted by the farm bureaus to locate every such animal. Similar projects are expected to be taken up soon in Brown, Delaware, Greene, Washington, and other counties.

To farmers who keep only pure bred sires, a certificate is issued cooperatively by the county farm bureau and the United States Department of Agriculture.

Care Of The Furnace

The furnace cannot work properly unless the flue is at least 5 by 8 inches, 8 by 12 inches is better.

The furnace chimney flue should have no other openings into it but the furnace smoke pipe.

Keep the firebox surfaces and flues clean. A crust of soot 1/4 inches requires 50 per cent more fuel than when surfaces are clean.

Do not let ashes bank up under the grate in the ash pit. Put but little coal on low fire. Carry a high fire; the low coals should come up to the top of the grate.

In moderate weather there should be 2 to 6 inches of ashes between the low coals and the grate.

At the furnace from two to four times a day. In mild weather, morning and night is usually often enough.

In cold weather, in early morning, again at noon, again at 5 or 6 o'clock and last at 9 to 11 in the evening.

Give the furnace the most thorough attention at this last firing. Clean the bottom of the firepot of ashes and fill the furnace with fuel. Leave a little of the same exposed to burn the escaping gases. If the furnace has received this attention at night, the grate may be opened in the morning for a few hours before adding fuel, or the ashes may be shaken down and enough fuel added to last until noon.

Verd Overholt, College of Agriculture.

Shorts And Middlings

More nature sheds are needed on Ohio Farms.

A flock of 100 mature fowls requires approximately 400 square feet of floor area. A house 16 feet wide and 25 feet long will be satisfactory for a flock of this size.

One western Ohio farmer was recently offered \$1.50 per ton for his straw the purchaser to bear all expense of baling and hauling. At a conservative estimate it is worth more than that amount as a fertilizer alone.

FINDLAY, Jan. 24.—City letter carriers used skates in making their rounds here when the entire city was covered with a sheet of ice which made walking almost impossible.

Scarifier Takes Coats From Hard Grass Seed

Studies made at the Ohio Experiment Station show that legume seeds may be made to germinate quickly by passing the seeds through a scarifier, an instrument which rubs the seeds gently with sandpaper.

Many legume seeds, such as red clover, alfalfa and white clover have hard coats so that the seeds cannot germinate readily.

The germination of white sweet clover was raised from 36 to 88 per cent by the use of such a machine at the Ohio Experiment Station.

Clover sown in the spring soon after the close of winter weather but early enough to encounter some freezing germinated fairly well; it has been found that 70 to 90 per cent of the seed grew readily when sown in this manner.

Ordinarily, these hard seeds require almost 3 months to germinate if they are not scarified or frozen in the soil. The hardness of these legume seeds should be considered by farmers as a factor in securing good stands of clover if it is sown.

By testing out a new spraying compound for the control of brown rot of peaches, the department of botany at the Ohio Experiment Station is now able to give peach growers of the State valuable information in the control of this disease.

For years a spray known as self-boiled limesulphur has been used, but since many difficulties were involved in its preparation, growers have been waiting for a substitute that could be quickly prepared and easily applied.

The new spray is known as a limesulphur-glue preparation. It is made of flour of sulphur, hydrated lime and gum glue, the glue serving as a sticker when mixed so that the spray is not easily washed off the leaves or fruit.

Where this spray has been used brown rot does not develop and the fruit is quite solid and firm, insuring its keeping qualities over a longer period and rendering the fruit easier to market.

BUYRUS, Jan. 24.—William Andrews, visiting Samuel Hise, on a farm east of the city, said he killed a ground squirrel during harvest and found 97 grains of wheat stored in the animal's pouches alongside its jaws. The squirrel, he said, was taking the wheat to store it for winter food.

Do This For Constipation

THE public should know that there is a vast difference in the action of the various remedies for constipation. Some are "flushes" purges, physics. They gripe and weaken.

For lasting effect use a laxative. Dr. Caldwell's Syrup Pepsin acts gently and mildly so that even a baby can use it with safety. It is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. A sixty-cent bottle will last an average family many months.

Dr. Caldwell's Syrup Pepsin is the most popular of all laxatives and more is used in American homes than any other. Last year eight million bottles were sold by druggists, the largest sale in the world.

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address Dr. W. B. Caldwell, 517 Washington St., Monaca, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Ambergris.

Ambergris is a waxy concretion
formed in the intestine of the sperm-
whale. It is found sometimes in the
whale, but chiefly on the surface of
those seas inhabited by the whale, or
cast upon the shore in masses some-
times over two hundred pounds in
weight. It is opaque and inflammable,
and usually of a grayish color
often streaked with brown, white or
gray. It is thought to be derived
from the fatty matter of cephalopods
(a class of mollusks including cuttle-
fish) eaten by the whale. Ambergris
has a slight but pleasant odor and is
largely employed in the manufacture
of perfumery.

NOT DISEASE, SAYS EXPERTIs Physically Impossible For One to Throw Off This Sla-
very Unaided, But Proper Treatment Results In Per-
manent Cures—Door of Hope RevealedNEW YORK, Jan. 25.—Habit, so decried herself of life-long friend-
the dictionary tells us, is a regular or
fixed mode of action. It may be phys-
ical or mental, or a combination of the
two.In another definition, habits are di-
vided into three classifications—these
inborn, infused and last, the acquired
ones, which are made by a repetition
of acts.To this last-named group may be
added the most pernicious and power-
ful of all habits, that of narcotic drug
using.Yet for years this "repetition of
acts"—piercing flesh with needles
filled with forgetfulness, inhaling
white powders that bring oblivion—
has been called a "disease." Narcotic
addiction, classed as a disease, there-
fore has been treated accordingly.Miss Sara Graham Mulhail, Deputy
Commissioner of the New York State
Department of Narcotic Drug Control,
has demonstrated in thousands of in-
stances that it is not a disease, but
merely a habit, which has a psycho-
logical as well as physical basis.This official has undertaken the dif-
ficult and thankless role of emanci-
pator, to free the narcotic addict from
the enslavement of his habit. Like
other sincere crusaders the Deputy
Commissioner, besides giving away a
large part of her private fortune, has
lost her own home, been scorned, feared at

ADVANCED STYLES FROM PARIS; WHAT MILADY WILL WEAR THIS SPRING

Left—This costume of Navy crepe Moroccan and robins egg blue is a truly Arabic
design inspired by the new possessions of France in the far east. The melange is of
colored embroidery with metal beads. (Middle) Here is a charming spring model of
black and white crepe Moroccan with black beads on the white. The manner in which
the color combination is achieved produces a unique and attractive effect. (Right)
This attractive street costume for spring wear is of crepe Moroccan with heavy steel
embroidery combined with Copenhagen blue silk. The back is also heavily embroideredand decried as an especially detest-
able type of criminal. He is none of
these characters, yet so.

Criminal Addicts in Minority

There are, of course, addicts who
are also criminals, but these are in
the minority. There are a vast num-
ber who because of their habit only
are social and fits. It is unjust to
throw them into institutions reserved
primarily for lawbreakers.It is often difficult to persuade the
addicts to take hospital treatment, but
by means either of depriving them of
their registration cards or by persua-
sion, many are induced to place them-
selves in a hospital where they can
be relieved of their craving, and by
this hospitalization I do not mean that
they must be treated as though suf-
fering from a disease. The actual tak-
ing off of the drug requires but a few
days of medical treatment.But think of the position of such a
person who, after medical treatment
goes out into the world again. Neither
his moral nor his physical condition
is strong. He is out of touch with
normal life and has no associations to
return to except those which are cer-
tain to make him a prey of vice again.The mental as well as the physical
desire for this evil habit must be
broken."Find me one instance," says the
Deputy Commissioner, "of an addict,
old or young, who has cured himself
permanently by a supreme effort of
his will. There are none. With all
the world against him and tormented
by his habit it is a physical and psy-
chological impossibility for him to
throw off his slavery unaided."OVER THE

Registering Addicts.

"You may ask me," said the de-
puty Commissioner, "why addicts are
allowed to be registered and be given
the drug by law. Because we have no
hospitals except the jail hospitals on
Riker's and Blackwell's islands, where
even the most refined men and women
—often unfortunate victims—must be
sent for treatment. Besides the un-
desirability of association with
criminals, there are no facilities at
either of these institutions for occupa-

"AFTER ALL, MEN ARE INFANTS," ASSERTS FEMINIST JANE BURR

Believes a Well-Organized Household Should Be Departmental Affair If Husband and Wife Must Live Together, But Husband Should Not Be "Boss" of Home

NEW YORK, Jan. 25.—Should a man be master in his own home?

Yea, verily, according to the Rev. A. C. Dixon, the Buffalo evangelist, in reproving the sins of Syracuse.

Master—yes, but not in his home—is the opinion of Miss Jane Burr, American author and feminist, who reproves with her pen the sins of modern society and its customs.

"The woman who is unwilling that a man should be at the head of the household should not get married," says Dr. Dixon. "The Bible teaches that the husband is the head of the household."

Across her sunlit desk Miss Burr smiled at me as she read the clergyman's dictum. Her appearance was a contrast. You don't expect to find Irish lace blouses and real cuffs in the village. Much less in Chelsea. But Miss Burr is a great success and can afford to be as unconventional as she pleases with long hair and other ornaments considered very radical in that vicinity.

"Absurd," she said tersely. "The well-organized home has no head. It should be departmental affair."

"I don't believe in the home—but that is beside the point."

Believe in Two Homes

"I do believe in two homes, one for the husband and one for the wife. That's what is the matter with marriage—the mutual home. I know, I've been married twice."

"One of the two in a mutual home will always try to get the upper hand. The strong one will become stronger and the weak one will become weaker."

"With two homes the woman goes on with her life as she did before marriage. Then there is no such discussion about who is head of the house."

"The problem of the 'home' would be solved if all women could work. If they could all be protected and cared for during the time their children are born, and if there were a pension for every child."

"I have heard many a girl in an office say, 'There's no way out of here except through the church door,' which proves that to many women matrimony is simply an easier way of earning a living than working in an office, for instance."

Departmental Domesticity

"If a couple must live together, then let the domesticity be departmental. Let a man have charge of what occurs outside the home and a woman take charge of the purely domestic affairs."

"In some things I would be willing to let a man be the head. As for example, a man could take care of such enterprises as crossing the street, helping a woman through crowds and paying the subway fare."

"Once inside the doors of his home, though, his power should end. Then he's here."

"That reminds me of something Dr. G. Wells said to me when I was in London recently."

Wants to Be Mothered

"Do you think," he asked me, "that a man wants intellectualty when he comes home at night? No, he wants to be mothered like a baby."

"Yes," I replied to Wells, "and a woman wants to mother a man like a baby only if she respects what he has been doing in the daytime."

"If a woman gets twenty-four hours a day a woman gets good and sick of mothering him."

"If a woman wants to sink herself

"AWFUL TO BE AN OLD MAID," SAYS WOMAN "CONGRESSMAN"

However, at Times It Has Its Advantages, Asserts Miss Alice Robertson, Elected to House of Representatives From Oklahoma—Is Happy to Be Lifted From "Grubbierness of Life to Find Her Real Soul"

MUSKOGEE, Jan. 25.—Declaring that she was going to Washington as a "representative" of the cities of the second district rather than as a "Congresswoman," Miss Alice Robertson, Muskogee's own political star, told Kiwanians recently that she regarded her success as a "revelation of the culmination of the work of twenty-five years among the Indians of Oklahoma during the past twenty-five years."

"You have brought me out of the grubbierness of life and found my real soul," she said in a whimsical, informal talk. "A woman recently called me over long-distance phone and asked me as the leading woman in politics in the country to talk to women in that town. And this morning that same leading woman was washing out pocket handkerchiefs because she couldn't get a laundress."

Introduced by President James Powell as "known and loved by all Muskogees for the many years," Miss Robertson was assured of the When you see the 35c heavy army socks D. O. backing of the Kiwanis Club in her work at Washington by a spontaneous burst of applause that brought every Kiwanian to his feet.

"I have a natural timidity in going to Congress," she told them. "I was always a pucky coward. I did things because I was afraid not to."

"I used to be a strong anti-suffragist—and I'm not sure but what I still am. Even if it was still leap year this running for Congress was not my own idea. Men asked me to go—and I'm going."

"You're a young club. You have set a fine record in the past year. Your street markers are helping many to find their way about the city. May you always make the way plain to others in life."

"I've always liked girls better than boys. Maybe that's the reason I'm an old maid."

"It's an awful thing to be an old maid. I've always told girls that I'm a horrible warning to them—not an example."

"But it's an advantage at times. During the campaign some men asked me why I didn't go home to take care of my family. I told him they had grown up long ago."

"One of the funny things since my election was when someone in Muskogee referred to this city as Robert-smith—formerly Muskogee."

"This is the first time I've spoken to Muskogee men since the election. I feel kind of guilty—like a kitten who has stolen the cream."

"I have neither a political post nor political ambitions. So after all I may be able to get away with my job. I hope to be fearless, to do the right things. When God didn't give me big things to do I tried to do the little ones well. No task was too small but that I could devote my efforts to it."

"They tell me I have more Democratic friends than Republicans. That's because there are more Democrats here. They used to tell me there were no Republicans here. But I told them the election would bring them up like angle worms after a spring rain—and it did."

"Senator Owen tried to make me a suffragist. But he could no more do that than he could make me a Democrat. I told him in 1885 that he would be the first Senator from this State."

Falls Nine Stories; Is Picked Up Alive

CINCINNATI, Jan. 25.—Falling nine stories to the pavement while at work on the Dixie terminal building this afternoon, Andy Conley, a workman, was still alive this fatally injured when pedestrians picked him up.

One end of the scaffold on which Conley was seated tilted and precipitated him to the sidewalk. He was taken to the general hospital suffering a fractured skull, both legs broken and his nose torn from his face.

Children Shiver and Starve in Destitute Lands of Europe; Will America Hear Their Call?

If you found one of these pitiable creatures on your doorstep some winter day, would you leave it there to die of cold and hunger?

Hardly!

Well, there are 3,500,000 of these European children starving on America's doorstep. The war threw them there inevitably, for America is the only country capable of feeding others as well as herself. Is she going to let them die outside her door this winter, or is she going to take them in?

If every American home will invite as an "invisible guest" just one of these European waifs, and will agree to feed, clothe and care for him this winter, every one of these children can be saved. It costs little to save them—only \$10.00 each.

The total cost of saving these lives equals that of building one battleship.

Think how much better it would be invested in making friends!

It is the European Relief Council under the chairmanship of Herbert Hoover, that is now pleading with America for these children. This Council consists of eight great organizations—American Relief Administration, American Red Cross, American Friends' Service Committee, Jewish Joint Distribution Committee, Federal Council of the Church of Christ, Knights of Columbus, Y. M. C. A., Y. W. C. A. Its treasurer is Franklin K. Lane, and its headquarters are at 42 Broadway, New York.

Anyone sending a contribution sufficiently large to save the life of even one child, will receive from the Council an engraved certificate testifying to the fact that the contributor's home is harboring this winter one "invisible guest" from Europe. Will you not send for yours?
